

Cement and Engineering News Volume 24

By -

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 246 pages. Dimensions: 9.7in. x 7.4in. x 0.5in. This historic book may have numerous typos and missing text. Purchasers can usually download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1912 edition. Excerpt: . . . builders, and by sounding the high seas of modern concrete construction, of lighting, of heating, of ventilation, of sanitary appliances, of elevator equipment, and safety devices, we believe we have pronounced the last word in up-to-date factory buildings. The width of sixty feet, made up in three bays, with shadow on the work benches and machine tools. In addition, inserts built into the bottom of the concrete beams as shown on the photograph of the interior, afford a simple and effective support for shaft hangers, piping, and wiring. By means of an ingenious device, designed by the Deering Works, consisting of slotted steel supports spanning the space between the longitudinal inserts, any adjustment or arrangement of shafting or supports that may be desired can be quickly and easily obtained; as John G. Wood graphically expressed it, We can play checkers with the shafting on...

Reviews

This is the best pdf i actually have read till now. It typically fails to charge too much. Your life period will probably be transform the instant you total reading this publication.

-- **Dr. Don Morissette V**

This publication will not be simple to get started on looking at but quite entertaining to learn. It generally fails to cost an excessive amount of. You will not feel monotony at anytime of your time (that's what catalogues are for about if you ask me).

-- **Bettie Gutmann**
