

Rethinking Development Strategies for Africa: A Way Forward for Africa of the 21st Century

Filesize: 4.86 MB

Reviews

A fresh eBook with an all new standpoint. It is actually written in simple words and phrases instead of difficult to understand. You won't sense monotony at any moment of your own time (that's what catalogs are for relating to if you question me).

(Dr. Marcel Collins)

Createspace, United States, 2010. Paperback. Book Condition: New. 228 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.This book is a research on development theories, practices, approaches, and strategies that bring some alternatives to the mainstream discourse on development in Africa. Africa, being the sole continent that is still draining behind all the other continents, has been a place where different strategies and theories of development were applied or tried. The apparent failure of moving ahead brings to critical minds a sense of questioning whether it is time to rethink these strategies. Knowing that Africa is a continent with various countries, with wide-ranging challenges, with different needs, with numerous potentials ranging from its abundant natural resources to the untapped human resources, it has been my quest to understand this complex continent and to give opportunity to the reader a grasp of whole array of possibilities in rethinking strategies of development for this continent. This entails broadening the development discourse and practices from economic approaches to all other areas such as human development, cultural situations, and sustainable development. It also involves blending scholarly works with local creative solutions. From the wide range of examples in the book, from all corners of the earth, one will discover how it presents a holistic understanding of development discourse and practice. This is where theories and local realities come together as an alternative contribution to the development field. I emphasize on the importance of combining academic theories to the local African incentives - such as creativity, sense of innovation, and problem-solving attitudes that some Africans hold -; the desirability of strengthening South-South cooperation (including the role of China) -, the huge impulse potential of civil society that can make to development, especially given the much needed growth of middle classes;...
