RESOURCE MANAGEMENT IN DEVELOPING COUNTRIES: AFRICA S ECOLOGICAL AND ECONOMIC PROBLEMS

ABC-CLIO, United States, 1991. Paperback. Book Condition: New. New.. 234 x 156 mm. Language: English . Brand New Book ***** Print on Demand *****.Designed as a text for undergraduate and graduate level courses in Third World development, *Resource Management in Developing Countries* takes an interdisciplinary approach to the problem of resource management in developing countries. James concludes that governments and private and international organizations must assist the African countries in efforts to save endangered species, protect forest and other resources, and provide an acceptable standard of living for the people. Students of planning, as well as policymakers in developing countries, will find this comprehensive treatment of the...
