By Professor United States Congress

Rarebooksclub.com, United States, 2012. Paperback. Book Condition: New. 246 x 189 mm. Language: English . Brand New Book ***** Print on Demand *****.This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1908 Excerpt: .seemed to indicate either a Mesozoic or Tertiary age. In 1903 Hess made a thorough search for fossils on several low. rounded limestone buttes which stand as islands in the Quaternary deposits of the Fish River delta near White Mountain. His search resulted not only in a collection of fossils from Mendenhall s original locality, but in additional collections from a hill called Black Mounlain, which lies several miles north of White Mountain. The collections were submitted to Doctor Schuchert, who reports on them as follows: Quart. Jour. Geol. Sop. London, vol. 34, 1878. Mendenhall, W. Upoonnsiissnnees In the Cape Nome and Norton Bay regions. Alaska, in 1000, a special publication of the U. S. Geol. Survey, pp. 203-204. Lot 3All103 (Black Mountain, near Fish River, 0 miles above White Mountain) has a Diphyphyllum quite unlike the other Seward Peninsula species. So far as the fossils...

Reviews

The ideal ebook i possibly study. Better then never, though i am quite late in start reading this one. It is extremely difficult to leave it before concluding, once you begin to read the book.
