Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from The Prophetic Movement in Israel The Prophetic Movement in Israel is one of a group of textbooks intended primarily for the use of training classes of teachers or prospective teachers. While it will probably find its largest use as a textbook in training for leadership and teaching, it is believed that it will be found to be an admirable course for Sunday-school classes of young people and adults who desire a more systematic study of parts of the Old Testament than is afforded by the Improved Uniform Lessons. In common with other training textbooks this book will also be found to meet the needs of some college classes. The plan of the book is clear and simple. In style it is readable and inspiring. The first five chapters present a brief summary of the history of the prophetic movement in Old Testament times. Following an introductory study of prophecy as an institution, and the distinctive characteristics of the prophets as compared with wise men and priests, the author in successive studies introduces the student to the pre-literary prophets, the prophets of the eighth century, those of the Babylonian period and finally the postexilic prophets. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
