A paranoid schizophrenic decides he must render himself sterile. A meth freak tries to destroy a trauma surgeon with a stolen tank. A man, confronting his checkered family history, must weigh the risks of donating half his liver to his brother. A plastic surgeon alters the appearance of a spy in a witness protection program and loses his clinic in the process. Sometimes, it is nature itself that heals. A teenager on a magical Minnesota lake confronts both his own mortality and a budding awareness of the opposite sex. A pre-med student finds solace in both music and orb-weaving spiders. A young doctor struggles to keep a child alive high in the Andes, where love can be as scarce as oxygen or as common as a mystic stone ruin. The multiple ways people take ill--and become...
